

Company Policy - Environmental

VFT has an objective to protect and enhance the environment at each construction site we are engaged at to provide surveying services. Our aim is to lead by example by initiating our own environmental procedures and policy as well as adapting to on-site policies and procedures provided by the lead contractors or client(s).

VFT objectives;

- Comply with environmental legislation and local requirements
- Comply with lead contractors Environmental Management Systems (EMS)
- Minimise the impact of our service(s) to the environment
- Reduce waste and look at new technologies to meet this aim
- Protect flora and fauna at all times
- Educate employees on key environmental issues
- Continually review policies to achieve our aims
