

Company Policy - Health and Safety

VFT is highly committed to safety. Our aim is to conduct our business in the safest possible way to reduce the slightest risk to injury or incident. Our goal is to integrate with other construction workers on-site and work together to eliminate unsafe practices.

VFT objectives;

- Comply with legislation and on-site requirements
- Attend and understand local inductions undertaken at each site that we service
- Read and understand our site specific Safe Work Method Statements (SWMS) and Job Safety Environmental Analysis (JSEA's)
- Show leadership and commitment in all aspects safety
- Reduce risk by empowering our workforce to make the right decision
- All VFT employees undertake a medical examination to ensure they are fit for work
- Provide up to date employee training
- Continually review policies to make VFT an employer of choice

Our safety record is looked on with pride and VFT wants to continually prove to its employees and the contractors we are engaged by that the job can be done safely, each and every day. VFT will always continue to improve our systems and technologies to protect our employees.
